

To Whom it may concern!,
As an Over the Road Driver. Satellite radio is a god send!.... The quality of the programming offered is what I need to stay informed, as to national matters and even more important weather locally. Traffic information is a must. I must pre schedule my driving time, make appointments far in advance. If there is bad weather or a major accident on a hwy I need to travel on. I can make adjustments as needed.

I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve. For me to be able to safely deliver my goods as needed.

Anthony J. Henry
